# DUNCANVILLE ISD

*Writing success stories, one student at a time.*

## Mission

The mission of Duncanville Independent School District is to provide each student with the necessary skills to achieve lifelong success and contribute to a global society.

## Vision

Duncanville ISD – Writing success stories, one student at a time.

## Values

- We believe students are our first priority.
- We model personal integrity and ethical behavior.
- We value and respect all students, staff, families, and community members.
- We provide a safe, nurturing environment to foster academic excellence and positive relationships.
- We embrace continuous improvement, data-driven decision making, and mutual accountability for organizational excellence.
- We believe every staff member contributes to student success.

\*Approved January 2016

Duncanville Independent School District  
710 S. Cedar Ridge Drive  
Duncanville, Texas 75137

November 13, 2020

**Formal Transmittal of the Comprehensive Annual Financial Report (CAFR)**

To the Citizens and Board of Trustees of the Duncanville Independent School District:

The CAFR of the Duncanville Independent School District (the District) for the fiscal year ended June 30, 2020, is hereby submitted. The report includes the unmodified opinion of our independent auditors, Weaver and Tidwell, LLP. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge and belief, the enclosed data is accurate in all material respect; that it is presented in a manner designed to fairly set forth the financial position and the results of operations of the District as measured by the financial activity of its various funds; and that all disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included. This report includes all funds of the District. The CAFR for the year end June 30, 2020, is presented in conformance with the reporting model adopted by the Governmental Accounting Standards Board ("GASB") in their statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, issued in June 1999. The CAFR also adheres to guidelines recommended by the Government Finance Officers Association of the United State and Canada (GFOA) and the Association of School Business Officials International (ASBO).

Generally Accepted Accounting Principles (GAAP) requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). MD&A is intended to give the reader an easy-to-understand overview of the school district's financial position and results of operations for the year. This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the Independent Auditors Report.

The remainder of this transmittal highlights the governance structure, the mission, the accomplishments and initiatives, the economic conditions and outlook, and the financial activities of the District.

Copies of this report will be provided to the City Library, Moody's Investment Service, Fitch Investor Service, Standard and Poor's and any other interested parties.

**PROFILE OF THE DISTRICT**

As its mission states, Duncanville Independent School District provides each individual student with the necessary skills to achieve lifelong success and contribute to a global society.

## COVID-19

Due to COVID-19, the district closed the 2019-2020 school year in March and did not open again during the school year. Technology upgraded to handle students educational needs from home with added computers and hot spots. The Curriculum Department quickly installed lessons and had teachers conducting virtual classes to continue the school year from home. Physical education classes continued to keep our students active. Our Child Nutrition Department continued serving meals with a parent pickup process. To prepare for the start the 2020-2021 school year the Board of Trustees gave parents the option to start school either virtual or in person. 70% chose to go virtual starting September 8, 2020 and 30% chose in person instruction for the first nine weeks ending November 6, 2020. Parents have until October 26, 2020 to make a choice of starting the second nine weeks virtual or in person on November 9, 2020.

### *General Education*

The District provides a fully comprehensive instructional program in grades K-12 with a pre-kindergarten program. The District will be starting a Head-Start the 2019-2020 school year for children who qualify. The District is committed to quality schools that encourage and sustain quality of life, freedom, democracy, and economic growth. In addition to the regular curriculum, the District provides a comprehensive Career and Technology Education (CTE) program in several areas:

- Agriculture, Food and Natural Resources
- Architecture and Construction
- Arts, A/V Technology and Communications
- Business Management and Administration
- Education and Training
- Finance
- Health Science
- Hospitality and Tourism
- Human Services
- Information Technology
- Marketing
- Manufacturing
- Science, Technology, Engineering and Mathematics
- Transportation, Distribution and Logistics

The District has other programs such as Gifted & Talented Education (GATE) Program which is designed to meet the diverse and unique needs of the gifted population. The GATE curriculum is designed to be a springboard to learning through interdisciplinary themes and higher-level thinking skills that will incorporate the four core areas of language arts, mathematics, social studies, and science. Gifted and Talented students will be offered learning opportunities designed to enrich and stimulate thinking skills, maximize intellectual and artistic growth, promote creativity, and expand leadership abilities to prepare the student for lifelong success. GATE is a K-12 program in the District.

The District offers Bilingual Education for Limited English Proficiency (LEP) students whose native language is Spanish in grades PK through 6<sup>th</sup>. The goal of our bilingual education program is to enable students with limited English proficiency to become competent in comprehension, speaking, reading, and composition of the English language through the development of literacy and academic skills in their primary language and English. The district also offers a Transitional/Early exit program model. Students are instructed in their primary language to establish a strong foundation that will lead to successful transition into English. The child's language of instruction in English gradually increases as he/she gains proficiency according to the state's English Language Proficiency Standards. This program also offers English as a Second Language (ESL) to LEP students who speak other languages in grades PK through 6<sup>th</sup> as well as for all LEP students in grades 7<sup>th</sup> through 12<sup>th</sup>. The goal of our ESL language program is to enable limited English proficient students to become competent in the comprehension, speaking, reading, and composition of the English language through the integrated use of second language methods.

The District provides Special Education Program, a comprehensive educational program with complete educational opportunities essential to the full intellectual and social development of students with disabilities between the ages of 3 and 21. The needs of such students require resources and assistance beyond those available within the regular classroom. The District believes in educating students in the least restrictive environment. A full continuum of instructional and related services is available to eligible students, with initial consideration given to provision of services in the general education classroom to the greatest extent possible. The emphasis will be on flexibility, with an individually tailored education to be provided on campus and/or within a centralized program to address communication, cognitive, developmental, socio/emotional, physical, and/or medical challenges. The District's goal is to assist students in developing skills that will enable them to participate successfully in society by improving outcomes, both in learning and social situations.

## DESCRIPTION OF THE ENTITY

The Duncanville Independent School District is an independent public educational agency operating under applicable laws and regulations of the State of Texas. A seven-member Board of Trustees, elected at large to staggered three-year terms by the District's residents, autonomously governs the District. The Board is the level of government which has oversight responsibility and control over all activities related to public school education within the District. Dallas County Appraisal District is used to place a value on the property and Dallas County Tax Office is used to collect the District's portion of taxes. The District receives funding from local, state and federal governments sources and must comply with all the requirements of these funding sources entities.

The District consists of twelve Elementary Schools. The oldest being Central Elementary built in 1939 up to our newest Acton Elementary built in 2018. We have three Middle Schools. The oldest being Byrd Middle School built in 1970 and the newest Kennemer Middle School built in 1991. Our one High School was built in 1965 and renovated with a Bond Election in 2001 enclosing the building from a college campus design.

There are five charter schools, A.W. Brown Charter School, Advantage Academy Public Charter School, Eagle Advantage Schools, UME Preparatory Academy and Harmony Nature School in the District that their primary source of funding comes from publicly funded by local, state, and federal tax dollars similar to districts—or traditional—schools. This funding ensures that charter schools are free, public, and open to all. Also the Foundation School Program (FSP) which is based on the number and types of students attending school (what the agency calls average daily attendance [ADA]). Schools that choose to provide transportation to students receive additional state funds. Charter schools are not entitled to participate in the Instructional Facilities Allotment program or the Existing Debt Allotment program.

The Texas Education Agency and Southern Association of Colleges and Schools provide the District's K-12 education accreditation. The District is home to approximately 68,380 residents within an area of 29.4 square miles and serves four communities, the entire city of Duncanville and portions of Dallas, Cedar Hill, and Desoto. Enrollment in the District's eighteen campuses, these include nine elementary, three intermediate and three middle schools, one high school, and two alternative campuses, was 12,674 for the 2019-2020 fiscal year, of which 35% were enrolled at the high school level, 17% at the middle school level and 48% at the elementary level.

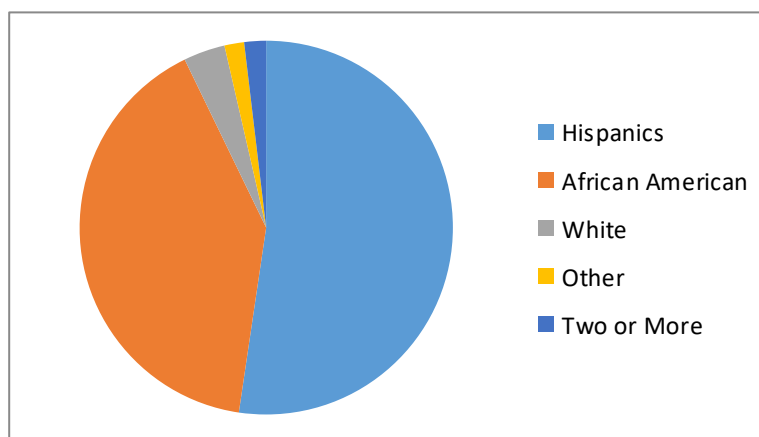

The District has an extensive Internet website with individual home pages for all departments and campuses. At <http://www.duncanvilleisd.org/> families can locate a wealth of information, including an Edulog bus transportation package that identifies the schools which serve their addresses.

The class of 1936 was the first class to graduate from a fully-accredited school in Duncanville. Since the first class left Duncanville ISD as graduates, the community has evolved and changed in the past 81 years. Since the first building in 1936 we have continued to build and improve school buildings with the most current funding from the Bond Construction Program of 2014. Also, in 2018 we had a TRE(Penny Swap) which gave the district additional funds for aging facilities, buses and athletic fields. Currently, a culturally and ethnically diverse population offers the benefit of a “real world setting” to the patrons of the District. By embracing change and progress, Duncanville schools represent the ideal environment for families who place education as a top priority in their lives and the lives of their children.

## Statistics

### Student Demographics

Hispanics – 53.5%  
 African American – 39.6%  
 White – 3.3%  
 Other – 1.7%  
 Two or more - 1.9%  
 Economically Disadvantaged – 78.3%  
 Limited English Proficient – 45.4

### Staff Demographics

Teachers – 47.5%  
 Professional Support – 11.2%  
 School Leadership – 3.1%  
 Central Administration – .94%  
 Educational Staff – 9.3%  
 Auxiliary Staff – 27.8%

### State of Texas Assessments of Academic Readiness

The State of Texas Assessments of Academic Readiness (STAAR) assessment replaced the Texas Assessment of Knowledge and Skills (TAKS), beginning in the 2011-2012 school year. Beginning in the Spring of 2016, STARR English III and Algebra II will be available for districts to administer as optional assessments.

STAAR will be used for the twelve (12) end-of-course assessments mandated by SB 1031 in 2007 and the new grade 3-8 assessments mandated by HB 3 in the 2009 legislative session. The new tests are significantly more rigorous than previous tests and will measure a child's performance as well as academic growth. The STARR for 2020 was exempted by Governor Greg Abbott due to the Pandemic of COVID-19.

## **ECONOMIC CONDITION AND OUTLOOK**

### ***Introduction***

Nestled in the wooded rolling hills of southwest Dallas County, among the most attractive scenery North Texas has to offer, is the city of Duncanville in Dallas County, Texas (USA). Duncanville is a suburb of Dallas and is part of the Best Southwest area, which includes Duncanville, Cedar Hill, Desoto, and Lancaster. The estimated population for 2019 of Duncanville is 39,364 with 4.1% unemployment rate. The job growth market has increase by 3.3% with future job growth over the next ten years is predicted to be 33.5%. The median home value in Duncanville is \$185,000. Home appreciation is up 9.60% over the last year. The median age of Duncanville real estate is 39 years. Renters make up 31.2% of the Duncanville population. 1.4% of houses and apartments in Duncanville are available to rent. 5.5% of houses and apartments in Duncanville are unoccupied. Overall Cost of Living in Duncanville is 93.5% compared to the United States average. Economic development activities in Duncanville over the last 5-7 years indicate that our community remains on a very slow rise. New businesses have started coming to the area.

### ***Local Economy/Access***

Duncanville provides businesses with a mature transportation infrastructure and convenient access to major freeways, railways and airports. Duncanville is literally minutes from Love Field (Southwest Airlines main hub), and DFW International Airport (American Airlines headquarters and one of the largest airports in the nation) is only twenty minutes away. The city sits just west of I-35E, a primary north & south highway in the center of Dallas county, while Interstate 20 crosses the north side of the city and Highway 67 runs through the east side. By providing companies with multiple means of access, Duncanville offers convenient and cost effective business opportunities at local, regional, national and international levels. The Duncanville Community & Economic Development Corporation (CEDC) continues to successfully recruit and retain dozens of businesses and further beautify this thriving city. In November 2005 the City broke ground on a 28 plus acre mixed use development that will consist of retail space, a financial institution, quality multi-family residential units, walking trails, fountains, and a five acre city park.

An example of a long-lasting sense of community spirit is the magical Kidsville playground. Over 5,000 citizens made it a reality by donating 36,000 hours of volunteer time, while Duncanville ISD students collected money for the project and local retailers supplied equipment, tools and materials. Attracting kids of all ages, it is still one of the largest volunteer-built creative wooden playgrounds in the United States, and is a monument to the community spirit of Duncanville. In 2018 Duncanville elected to add a splash pad to the park. Kidsville along with 10 other parks in the city add to the charm and family atmosphere of our community.

Duncanville is next door to several exciting North Texas attractions. The Cedar Ridge Preserve (formerly Dallas Nature Center) is a 360-acre park that offers seven miles of hiking trails for enjoying scenic views, native trees, wildflowers, butterflies, birds, insects and other wildlife. Joe Pool Lake and Cedar Hill State Park, encompassing 30,000 acres, create a boating, fishing and camping paradise encircled by mountain biking and walking trails. The Penn Farm Agricultural History Center located within the park shows the evolution of buildings constructed by the Penn family as they updated their farm with modern conveniences. Art from other cultures comes to life in the renowned International Museum of Cultures on the campus of the International Linguistics Center. Visitors gain a greater understanding of different ways of life of the culturally diverse peoples living today.

Duncanville is just minutes away from downtown Dallas, the Arts District, the Bishop Arts District, the new \$185,000,000 Perot Museum of Nature and Science, Klyde Warren Park over Woodall Rodgers, one of the few parks in the United States that is over a highway, which will be including soon a three story building added to the Klyde Warren Park for events, the Meyerson Symphony Center, the American Airlines Arena (home of the Dallas Stars and Dallas Mavericks), AT&T Stadium in Arlington (home of the Dallas Cowboys), and the new Ballpark in Arlington (new home of the Texas Rangers opening in March 2020). The former home of the Texas Rangers called Globe Life Park will be used for concerts in the future.

In addition to educational facilities provided by Duncanville Independent School District, the city of Duncanville also offers many quality childcare centers. There are seventeen institutions of higher education in Dallas County, including Southern Methodist University, University of Texas at Dallas, University of North Texas System Center at Dallas, and the Dallas County Community College District.

## ***FINANCIAL POLICIES***

*Internal and Budgetary Controls:* The management of the District follows certain methods and procedures of accounting for revenues and disbursements as required by Texas Education Code. These methods and procedures are outlined by TEA Financial Accountability System Resources Guide. The business and purchasing operations of the District are under the direction of the Chief Financial Officer and Operation Officer.

The District contracts with Skyward for computer services, which records all revenues realized and all expenditures made during the fiscal year. The records include a statement showing total receipts from each fund, itemized according to source; total disbursements, itemized according to the nature of expenditures; and the balance on hand in each fund. The records are kept in the business office under the direction of the Chief Financial Officer.

The annual operating budget is a site-based decision making process. This process is designed to allow schools and central office departments to plan future operations in a manner which best serves the needs of students. Each principal/director works with a total appropriation. Individual allocations will be determined at the campus level and site-based shared decision-making requires input from the faculty.

### ***Budget and Tax Rate***

The Board of Trustees is required to adopt a final budget by no later than the close of the fiscal year, June 30. Annual budgets for the General Operating Fund, Debt Service Fund and Child Nutrition Fund were adopted by the Board of Trustees on June 29, 2019. The budget is prepared by fund and function. Site based decisions are made throughout the year as campuses and departments manage their budgets. Budget transfer between functions, however, require approval from the Board of Trustees. The District operates a tightly controlled budget in all areas of operation while maintaining a high quality educational program. All purchases over \$10K must go through eight approvals ending with the Superintendent prior to going to Purchasing. Any purchases over \$50K must go through eight approvals including approval by the Board of Trustees. The Board of Trustees is also required to adopt the tax rate for the current fiscal year which was adopted August 19, 2019 for the 2020 year.

### ***State Funding Components***

- Maintenance and Operations Tax Rate - \$1.0683
- Interest and Sinking Tax Rate - \$.0.3500
- Basic Allotment – \$6,030
- Revenue at Compressed Rate per WADA – \$3,841
- Student transportation provides additional state funds

### ***Long-Term Financial Planning***

The District has maintained its fund balance to insure that the needed resources are available to provide for current operations and unexpected situations:

- With the 2018 TRE(Penny Swap) passing it has helped the District with many updates that were not included in the 2014 Bond Election. The District has purchased 14 new buses to add to the Transportation Fleet and working on a new Administration Office and Training Center in one of our old elementary buildings.
- We are in the process of renovating the old Administration building for our District Police Department.
- For the future, the District is seeking to pay off outstanding financial obligations.

## ***Major Initiatives***

***Capital Projects*** The community approved a \$102,545 million Bond Program, November 2, 2014 to replace two Elementary Schools and brought much-needed changes to many of the district facilities. In addition to constructing the two replacement elementary schools, through bond funding every existing campus is having technology renovations. The first elementary school opened for classes in the 2016-2017 school year and the second elementary school opened for classes in the 2017-2018 year.

## ***Independent Audit***

A financial audit is required annually for each school district, and is to be made on an organization-wide basis, including all fund types and account groups that are the accounting responsibility of the school district. The Board of Trustees selected the accounting firm Weaver and Tidwell, LLP, for the 2019-2020 financial audit.

## ***Summary of Achievements***

- Senate Bill (SB) 218 of the 77<sup>th</sup> Legislature (2001) authorized the implementation of a financial accountability rating system called school FIRST (Financial Integrity Rating System of Texas). The District received the highest rating of Superior Achievement. This rating shows that the District's schools are accountable not only for student learning, but also for achieving those results cost effectively and efficiently. This rating is based upon an analysis of staff and student data reported for the 2019-2020 school year and budgetary and actual financial data for the fiscal year ending June 30, 2020. The District has received a Superior Achievement rating for the past fifteen years.
- According to the No Child Left Behind Act, school districts are required to meet the state's measurable highly qualified requirements. For the sixteenth year in a row, the District has 100% of the core academic subjects taught by highly qualified teachers.
- Fifteen of the District's campuses Met TEA School Accountability Standards for TEA School Accountability Standards for 2018.
- The Texas Comptroller's Office awarded a Fifth Year Platinum Award to the District for the Texas Comptroller Leadership Circle Program 2011, 2012, 2013, 2014 and 2015. This award is given to local governments across the state of Texas striving to meet a high standard for financial transparency online.
- Received the ASBO Certificate of Excellence in Financial Reporting Award for a seventh time for the fiscal year end of June 30, 2019.
- Received the Government Finance Officers Association, Certificate of Achievement for Excellence in Financial Reporting for a seventh time for the fiscal year end of June 30, 2019.

## ***Acknowledgements***

The presentation and development of this report would not be possible without the special efforts of Edd Bigbee, and other Finance Department staff members. We would also like to express our appreciation to the Board of Trustees for their interest and support regarding the District's financial operations and guiding us through the Pandemic.

Sincerely,

---

Dr. Marc Smith  
Superintendent

## Independent Auditor's Report

To the Board of Trustees of  
Duncanville Independent School District  
Duncanville, Texas

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Duncanville Independent School District (the District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

The District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2020, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information and the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section, other supplementary information, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance), and is also not a required part of the basic financial statements.

The other supplementary information and schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section and statistical section, and Schedule of Required Responses to Selected School FIRST Indicators have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

The Board of Trustees of  
Duncanville Independent School District

**Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated November 13, 2020 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

## Management's Discussion and Analysis

This section of Duncanville Independent School District's annual financial report presents our discussion and analysis of the District's financial performance during the year ended June 30, 2020. Please read it in conjunction with the District's financial statements, which follow this section.

### Financial Highlights

#### On a Government-Wide Basis

The District's assets and deferred outflows of resources were exceeded by its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$25,782,150 (net position). Of this amount, \$17,658,675 is unrestricted and was in a deficit due to the implementation of GASB 68 and GASB 75 in prior years.

The District's total net position decreased by (\$515,431) during the fiscal year.

The total cost of the District's programs was \$168,058,454 for the year ended June 30, 2020.

#### In Accordance with Fund Accounting

The District's governmental funds financial statements reported a combined ending fund balance of \$83,958,421. Of this amount, the General Fund includes \$647,971 of nonspendable funds, \$16,100,000 of assigned fund balance, and \$50,925,391 of unassigned fund balance available for spending at the District's discretion. The Special Revenue Funds reported a fund balance of \$3,811,712, all restricted or committed. Fund balance of \$12,473,347 and \$3,162,760 is restricted for use by the Debt Service and Capital Projects Funds, respectively.

The District's General Fund reported an unassigned fund balance of \$50,925,391 or 45.3% of the total General Fund expenditures for the year ended June 30, 2020.

#### Overview of the Financial Statements

This annual report consists of three parts – *management's discussion and analysis* (this section), the *basic financial statements*, and *other supplementary information*. The basic financial statements include two kinds of statements that present different views of the District:

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the District's operations in *more detail* than the government-wide statements.
- *Governmental fund* statements tell how *general government* services were financed in the *short term* as well as what remains for future spending.
- *Proprietary fund* statements offer *short* and *long-term* financial information about the activities the government operates *like businesses*.
- *Fiduciary fund* statements provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others, to whom the resources in question belong.

The financial statements also include *notes* that explain some of the information in the financial statements and provide more detailed data.

The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the financial statements.

**Government-Wide Statements.** The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements, *statement of net position* and *statement of activities*, report the District's *net position* and how it has changed. Net position – the difference of the District's assets, and deferred outflows and resources; less liabilities, and deferred inflows of resources – is one way to measure the District's financial health or *position*.

Over time, increases or decreases in the District's net position is an indicator of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the District, you need to consider additional non-financial factors such as changes in the District's tax base.

The government-wide financial statements of the District include the *governmental activities*. These statements recognize the District's functions, such as instruction, extracurricular activities, curriculum and staff development, health services, and general administration as being primarily supported by property taxes and intergovernmental revenues. The government-wide financial statements can be found on pages 18 and 19 of this report.

**Fund Financial Statements.** The fund financial statements provide more detailed information about the District's most significant *funds*, not the District as a whole. Funds are accounting devices that the District uses to keep track of specific sources of funding and spending for particular purposes.

Some funds are required by State law and by bond covenants.

The Board of Trustees establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The District has three kinds of funds:

***Governmental Funds.*** Most of the District's basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because the focus of the governmental funds is shorter-term than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's short-term financing decisions. In addition, reconciliations are provided following the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances to aid in the comparison between *governmental funds* and *governmental activities*. The basic governmental fund financial statements can be found beginning on page 20 of this report.

***Proprietary Funds.*** Services for which the District charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-and short-term financial information. There are two types of proprietary funds:

*Internal Service Funds* are used to report activities that provide supplies and services for the District's other programs and activities, such as the District's Worker's Compensation Self Insurance Fund.

*Enterprise Funds* are used to report the same functions presented as business-type activities in the government-wide financial statements. The District does not maintain any enterprise funds.

The basic proprietary fund financial statements can be found beginning on page 27 of this report.

***Fiduciary Funds.*** The District is the trustee, or *fiduciary*, for certain funds. It is also responsible for other assets that, because of a trust arrangement, can be used only for the trust beneficiaries. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position that can be found on pages 30 and 31 of this report. We exclude these activities from the District's government-wide financial statements because the District cannot use these assets to finance its operations.

***Notes to the Financial Statements.*** The notes provide additional information that is essential to a complete understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found beginning on page 33 of this report.

***Other Information.*** This report also presents certain required supplementary information, combining schedules, and other information required by the Texas Education Agency that further explains and supports the information in the financial statements. The required supplementary information, combining schedules, and other TEA required information can be found on pages 65-89 of this report.

## Financial Analysis of the District as a Whole

**Net Position.** The District's combined net position was a deficit of \$25,782,150 at June 30, 2020. (See Table A-1).

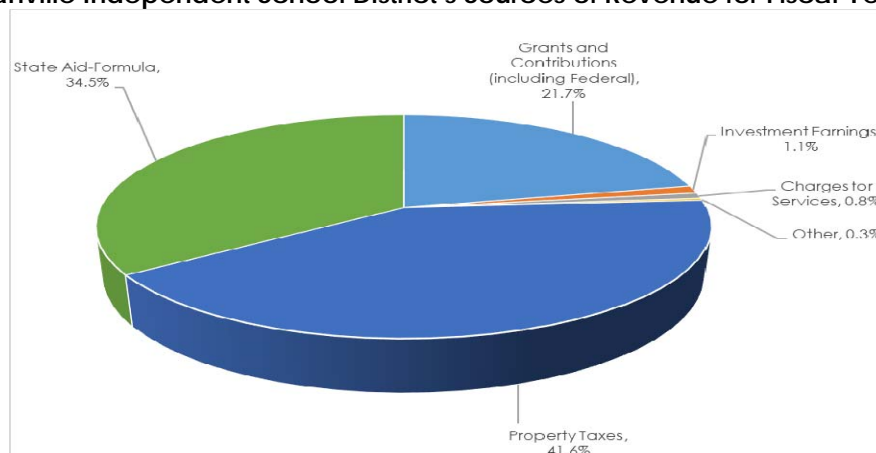

**Table A-1**  
**Duncanville Independent School District's Net Position**

	2020	2019
Current and other assets	\$ 104,657,548	\$ 107,164,620
Capital assets	203,827,337	207,231,552
Total assets	308,484,885	314,396,172
Deferred outflows of resources	27,621,529	30,534,296
Current liabilities	17,578,009	18,382,173
Noncurrent liabilities	315,869,814	332,645,639
Total liabilities	333,447,823	351,027,812
Deferred inflows of resources	28,440,741	19,169,375
Net position		
Net investment in capital assets	(14,425,025)	(10,341,372)
Restricted	6,301,550	6,039,156
Unrestricted	(17,658,675)	(20,964,503)
Total net position	\$ (25,782,150)	\$ (25,266,719)

Net investment in capital assets (e.g. land, buildings, furniture, and equipment) is (\$14,425,025). Although the District's investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay the debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional amount, \$6,301,550 (restricted net position), represents resources that are subject to external limitations on how they may be used. The remaining deficit net position of (\$17,658,675) (unrestricted net position) resulted from the implementation of GASB 68 for pensions and GASB 75 for other postemployment benefits (retiree health care provided through TRS-CARE) in prior years.

**Change in Net Position.** The District's total revenues were \$167,543,023. 34.5% of the District's revenues comes from state allocations – formula grants and 41.6% from property taxes. (See Figure A-1) 21.7% relates to grants and contributions (including federal funds).

**Figure A-1**  
**Duncanville Independent School District's Sources of Revenue for Fiscal Year 2020**

**Governmental Activities.** The total cost of all programs and services was \$168,058,454 (See Table A-2); 64.1% of these costs are for instruction and instructional related services.

**Table A-2**  
**Duncanville Independent School District's Changes in Net Position**

	Governmental Activities		Total % Change
	2020	2019	
Revenues			
Program revenues:			
Charges for services	\$ 976,856	\$ 1,350,112	-28%

Payments to Juvenile Justice Alternative Education Program	6,420	20,670	-69%
Other intergovernmental charges	262,605	299,888	-12%
Total expenses	168,058,454	158,814,658	6%
Increase (decrease) in net position	(515,431)	7,584,594	-107%
Net position, beginning	(25,266,719)	(32,851,313)	-23%
Net position, ending	\$ (25,782,150)	\$ (25,266,719)	2%

Table A-3 presents the cost of each of the District's largest functions, as well as, each function's net cost (total cost less fees generated by the activities and intergovernmental aid). The net cost reflects what was funded by general state revenues as well as local tax dollars.

- The cost of all governmental activities for the year was \$168,058,454;
- The amount that our taxpayers paid for these activities through property taxes was \$69,947,899;
- Some of the cost was paid by those who directly benefited from the programs \$976,856; or
- By operating grants and contributions \$34,297,691.

**Table A-3**  
**Duncanville Independent School District's Cost of Functions**

	Total Cost of Services		% Change	Net Cost of Services		% Change
	2020	2019		2020	2019

School leadership	9,760,590	8,859,258	10.2%	8,513,546	7,404,958	15.0%

### Financial Analysis of the District's Funds

Revenues of the General Fund totaled \$123,132,698, an increase of 0.6% compared to the preceding period's General Fund revenues. Local revenues decreased by 1.9% primarily due to a decrease in interest revenue, state revenues increased 6.5% due to increases in state aid from House Bill 3, and federal revenues in the General Fund decreased by 55.4% related to SHARS revenue, as the District received two years payments in the prior year as the State of Texas caught up on delayed payments, and only received one year of payment in the current year.

*Governmental funds.* The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the District's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the District's governmental funds reported combined ending fund balances of \$83.9 million. Approximately 61% of this total amount or \$51.0 million constitutes the unassigned fund balance. The remainder of fund balance is nonspendable, restricted, or assigned to indicate that it is not available for new spending because it has already been: 1) restricted for retirement of long-term debt \$12.4 million, 2) restricted for capital projects \$3.2 million, 3) restricted for federal and state grants \$220 thousand, 4) committed and assigned for other purposes \$16.5 million, and 5) nonspendable \$648 thousand.

The general fund is the primary operating fund of the District. At the end of the current fiscal year, unassigned fund balance of the general fund was \$50.9 million.

The general fund reported an ending fund balance of \$67.7 million. The net change in fund balance resulted in an increase in the general fund balance from the prior year in the amount of \$8.6 million. The increase in fund balance was the result of conservative spending which caused actual expenditures to be well under budgeted expenditures and revenues which were in line with the budget.

The debt service fund has a total fund balance of \$12.5 million, all of which is restricted for the payment of debt service. The net increase in fund balance during the period in the debt service fund was \$610 thousand. The increase is due to rising property values.

The non-major governmental funds has a total fund balance of \$3.8 million which represents an decrease of \$8.1 million. This decrease is mainly due to the capital projects fund not qualifying as a major fund in the current year and being reported as a nonmajor governmental fund. The capital project fund decreased \$7.5 million in the current year primarily due to construction projects in the current year.

### **General Fund Budgetary Highlights**

Over the course of the fiscal period, the District amended its budget several times. The most significant budget amendments were as follows:

- A decrease to the instructional expenditure budget of \$1,137,996 mainly due to fewer open personnel positions;
- An increase to the facilities acquisition and construction expenditure budget of \$1,267,465 due to construction on the new police station that began at the end of the fiscal year.

After appropriations were amended as described above, actual expenditures were \$13,255,682 below final budgeted amounts. The most significant positive variances resulted from personnel savings from open positions.

## Capital Assets and Debt Administration

**Capital Assets.** As of June 30, 2020, the District had invested \$400,580,571 in a broad range of capital assets, including land, land improvements, buildings and improvements and furniture and equipment (See Table A-4). This amount represents a net increase (including additions and deductions) of \$9,039,614 or 2.3% more than last year.

**Table A-4**  
**Duncanville Independent School District's Capital Assets**

	2020	2019	Total % Change
Land	\$ 5,151,359	\$ 5,151,359	0.0%
Construction in progress	1,543,098	667,968	131.0%
Buildings and improvements	363,242,107	355,920,573	2.1%
Furniture and equipment	30,644,007	29,801,057	2.8%
Totals at historical cost	400,580,571	391,540,957	2.3%
Total accumulated depreciation	(196,753,234)	(184,309,405)	6.8%
<b>Net capital assets</b>	<b>\$ 203,827,337</b>	<b>\$ 207,231,552</b>	<b>-1.6%</b>

More detailed information about the District's capital assets is presented in Note 7 to the financial statements.

## Long-Term Debt

At June 30, 2020, the District had \$231,460,842 in bonds payable as shown in Table A-5. More detailed information about the District's debt is presented in Note 9 to the financial statements.

**Table A-5**  
**Duncanville Independent School District's Long-Term Debt**

	2020	2019	Total % Change
General obligation bonds	\$ 198,665,000	\$ 200,331,096	-0.8%
Accreted interest	7,126,439	10,056,531	-29.1%
Bond premium (discount) & CAB Premium	25,669,403	31,214,400	-17.8%
<b>Total long-term debt</b>	<b>\$ 231,460,842</b>	<b>\$ 241,602,027</b>	<b>-4.2%</b>

## Bond Ratings

The District's bonds presently carry "AAA" ratings with underlying ratings as follows: Moody's Investor Services "Aa3" and Standard & Poor's "AA-".

## **Economic Factors and Next Year's Budgets and Rates**

- Appraised value used for the 2020 budget preparation increased 7.7% from the previous year;
- The District's refined average daily attendance (ADA) was based on no student growth;
  - Tax rates set for 2019-20:
  - M & O Rate from \$1.17 to \$1.0683
  - I & S Rate stayed at \$0.35

The initial General Fund budget was \$125.9 million with State Funding of \$67.8 million, a decrease of \$2.3 million.

## **Contacting the District's Financial Management**

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, please contact the District's Financial Services Department.

<b>TOTAL FUND BALANCES - GOVERNMENTAL FUNDS</b>	<b>\$ 83,958,421</b>
The District uses internal service funds to charge the cost of certain activities, such as self-insurance, to appropriate functions in other funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.	1,618,819
Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental fund financial statements.	400,580,571
Accumulated depreciation is not reported in the fund financial statements.	(196,753,234)
Bonds payable are not reported in the fund financial statements.	(198,665,000)
Capital appreciation bond premiums are not reported in the fund financial statements.	(6,646,616)
Accreted interest payable for capital appreciation bonds is not reported in the fund financial statements.	(7,126,439)
Bond premiums are not recognized in the fund financial statements.	(19,022,787)
Interest on outstanding debt is accrued in the government-wide financial statements, whereas in the fund financial statements interest expenditures are reported when due.	(3,397,770)
Deferred charges on bond refundings are not recognized in the fund financial statements.	2,919,281
Revenue reported as a deferred inflow of resources in the governmental fund financial statements was recorded as revenue in the government-wide financial statements.	4,900,069
Included in the items related to government-wide long-term debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68 in the amount of \$37,368,701, Deferred Resource Inflows related to TRS in the amount of \$7,937,036, and Deferred Resource Outflows related to TRS in the amount of \$16,728,209. This results in a decrease in Net Position in the amount of \$28,577,528.	(28,577,528)
Included in the items related to government-wide long-term debt is the recognition of the District's proportionate share of the net OPEB liability required by GASB 75 in the amount of \$47,040,271, Deferred Resource Inflows related to TRS-Care in the amount of \$20,503,705, and Deferred Resource Outflows related to TRS-Care in the amount of \$7,974,039. This results in a decrease in Net Position in the amount of \$59,569,937	(59,569,937)
<b>TOTAL NET POSITION - GOVERNMENTAL ACTIVITIES</b>	<b>\$ (25,782,150)</b>

Reconciliation of the Statement of Revenues, Expenditures, and Changes in  
Fund Balance of the Governmental Funds  
to the Statement of Activities  
For the Fiscal Year Ended June 30, 2020

<b>TOTAL NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS</b>	<b>\$ 1,095,766</b>
The District uses internal service funds to charge the costs of self-insurance to appropriate functions in other funds. The net effect of this consolidation is to increase net position.	288,088
Current year capital outlays are expenditures in the fund financial statements, but they are shown as increases in capital assets in the government-wide financial statements. The net effect of removing the 2020 capital outlays is to increase net position.	9,039,614
Depreciation is not recognized as an expenditure in governmental funds since it does not require the use of current financial resources. The net effect of the current year's depreciation including adjustments, is to decrease net position in the government-wide financial statements.	(12,443,829)
Current year long-term debt principal payments on bonds payable are expenditures in fund financial statements, but are shown as reductions in long-term debt in the government-wide financial statements.	1,666,096
Current year decrease in capital appreciation bond premiums is not reflected in the fund financial statements, but is shown as a decrease in long-term debt on the government-wide financial statements.	4,035,461
Current year decrease in accretion on capital appreciation bonds is not reflected in the fund financial statements, but is shown as a decrease in long-term debt on the government-wide financial statements.	2,930,092
Current year amortization of the premium on bonds is not recorded in the fund financial statements, but is shown as a decrease in long-term debt in the government-wide financial statements.	1,509,536
Revenues from property taxes are not recognized in the fund financial statements until they are considered available to finance current expenditures, but such revenues are recognized when assessed, net of an allowance for uncollectible amounts, in the government-wide financial statements.	(3,106,918)
Interest is accrued on outstanding debt in the government-wide financial statements, whereas in the fund financial statements interest expenditures are reported when due. This amount represents the current year decrease in interest payable.	20,156
Current year amortization of the deferred charges on bond refundings is not recognized in the fund financial statements, but is shown as a reduction of the deferred charges in the government-wide financial statements.	(384,787)
The net change in net pension liability, deferred outflows, and deferred inflows is reported in the statement of activities but does not require the use of current financial resources and, therefore, is not reported as expenditures in the governmental funds. The net change consists of decrease in deferred outflows (\$3,677,946); increase in deferred inflows (\$4,516,849); and decrease in net pension liability \$3,871,027.	(4,323,768)
The net change in net OPEB liability, deferred outflows, and deferred inflows is reported in the statement of activities but does not require the use of current financial resources and, therefore, is not reported as expenditures in the governmental funds. The net change consists of an increase in deferred outflows \$1,149,963; increase in deferred inflows (\$4,754,516); and a decrease in net OPEB liability \$2,763,615.	(840,938)
<b>CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES</b>	<b>\$ (515,431)</b>

## **Duncanville Independent School District**

### **Notes to the Basic Financial Statements**

#### **Note 1. Summary of Significant Accounting Policies**

Duncanville Independent School District (the District) is a public educational agency operating under the applicable laws and regulations of the State of Texas. It is governed by a seven member Board of Trustees (the Board) elected by registered voters of the District. The District prepares its basic financial statements in conformity with generally accepted accounting principles promulgated by the Governmental Accounting Standards Board and other authoritative sources; and it complies with the requirements of the appropriate version of Texas Education Agency's Financial Accountability System Resource Guide (the Resource Guide) and the requirements of contracts and grants of agencies from which it receives funds. The following is a summary of the more significant accounting policies of the District.

#### **Reporting Entity**

The Board of Trustees (the Board) is elected by the public and it has the authority to make decisions, appoint administrators and managers, and significantly influence operations. It also has the primary accountability for fiscal matters. Therefore, the District is a financial reporting entity as defined by the Governmental Accounting Standards Board (GASB) in its Statement No. 14, *The Financial Reporting Entity*. There are no component units included within the reporting entity and the District is not included in any other governmental reporting entity.

#### **Government-Wide and Fund Financial Statements**

The Statement of Net Position and the Statement of Activities are government-wide financial statements. They report information on all of the Duncanville Independent School District non-fiduciary activities with most of the inter-fund activities removed. Governmental activities include programs supported primarily by taxes, state foundation funds, grants and other intergovernmental revenues. Business-type activities include operations that rely to a significant extent on fees and charges for support. The District has no business-type activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function and (2) grants and contributions that are restricted to meeting operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The fund financial statements provide reports on the financial condition and results of operations for three fund categories – governmental, proprietary, and fiduciary. Since the resources in the fiduciary funds cannot be used for District operations, they are not included in the government-wide statements. The emphasis of fund financial statements is on major governmental funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as non-major funds.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All other revenues and expenses are non-operating.

## **Duncanville Independent School District**

### **Notes to the Basic Financial Statements**

#### **Measurement Focus, Basis of Accounting, and Financial Statement Presentation**

The government-wide financial statements use the economic resources measurement focus and the accrual basis of accounting, as do the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible to accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available.

Grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as deferred revenues until related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the District to refund all or part of the unused amounts.

The Proprietary Fund Types and Fiduciary Funds are accounted for on a flow of economic resources measurement focus and utilize the accrual basis of accounting. This basis of accounting recognizes revenues in the accounting period in which they are earned and become measurable and expenses in the accounting period in which they are incurred and become measurable. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included in the proprietary funds Statement of Net Position. Net position is segregated into net investment in capital assets, restricted net position, and unrestricted net position.

#### **Fund Accounting**

The District reports the following major governmental funds:

##### *General Fund*

The general fund is the District's primary operating fund. It accounts for all financial resources except those required to be accounted for in another fund.

## **Duncanville Independent School District**

### **Notes to the Basic Financial Statements**

#### *Debt Service Fund*

The debt service fund is utilized to account for the accumulation of resources and the payment of general long-term debt principal, interest, and related costs arising from general obligation bonds.

Additionally, the District reports the following nonmajor fund type(s):

#### **Governmental Funds**

##### *Special Revenue Funds*

The District accounts for resources restricted to, or designated for, specific purposes by the District or a grantor in a special revenue fund. Most Federal and some State financial assistance is accounted for in a Special Revenue Fund and sometimes unused balances must be returned to the grantor at the close of specified project periods.

##### *Capital Projects Fund*

The capital projects fund is utilized to account for financial resources to be used for the acquisition or construction of major capital facilities. Such resources are derived from proceeds of General Obligation Bonds and interest earned on such monies and local sources designated for such purpose.

#### **Proprietary Funds**

##### *Internal Service Funds*

Revenues and expenses related to services provided to organizations inside the District on a cost reimbursement basis are accounted for in an internal service fund. The District's Internal Service Funds are for transportation and the District's Worker's Compensation Self-Insurance Fund.

#### **Fiduciary Funds**

##### *Private Purpose Trust Funds*

The District accounts for donations for which the donor has stipulated that both the principal and the income may be used for purposes that benefit parties outside the District. The District's Private Purpose Trust Funds are scholarship funds that are awarded to current and former students for post-secondary education purposes.

##### *Agency Funds*

The District accounts for resources held for others in a custodial capacity in agency funds. The District's Agency Fund is the Student Activity Fund.

#### **Financial Statement Accounts**

##### *Cash and Cash Equivalents*

For the purposes of the statement of cash flows for proprietary and similar fund types, the District considers highly liquid investments to be cash equivalents if they have a maturity of three months or less when purchased.

##### *Investments*

In accordance with GASB Statement Nos. 31 and 72, the District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes.

## Duncanville Independent School District

### Notes to the Basic Financial Statements

#### Inventories of Supplies and Materials

Supplies and materials to be utilized in governmental funds are recorded as expenditures under the consumption method. Under the consumption method, cost is recorded as an expenditure in the period supplies and materials are utilized. Supplies and materials purchased for the subsequent year are recorded by specific identification. All inventories are capitalized at cost using the first-in, first-out valuation method.

#### Property Taxes

Property taxes are levied by October 1, on the assessed value listed as of January 1 for all real and business personal property located in the District in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 31 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available (1) when they become due or past due and receivable within the current period and (2) when they are expected to be collected during a 60-day period after the close of the school fiscal year.

Delinquent taxes are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectible tax receivables within the General and Debt Service Funds are based on historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

#### Capital Assets

Capital assets, which include land, buildings, furniture and equipment, are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Buildings, furniture and equipment of the District are depreciated using the straight line method over the following estimated useful lives:

Assets	Years
Buildings	50
Building improvements	7-30
Vehicles	5-10
Office equipment	5-20
Computer equipment	5

#### Long-Term Debt

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the governmental activities or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bond issuance costs are expensed when incurred.

## Duncanville Independent School District

### Notes to the Basic Financial Statements

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

#### Deferred Outflows/Inflows of Resources

Deferred outflows of resources represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditures) until then. Deferred inflows of resources represents an acquisition of net position that applies to a future period(s) and will not be recognized as an inflow of resources (revenue) until that time. Deferred outflows/inflows of resources are amortized as follows: Deferred outflows/inflows from pension and OPEB activities are amortized over the weighted average remaining service life of all participants in the respective qualified pension plan and OPEB except for projected and actual earnings differences on investments which are amortized on a closed basis over a five-year period. District contributions to the pension and OPEB plans after the measurement date of each plan are recognized in the subsequent fiscal year. Deferred charge/gain on refunding is amortized over the shorter of the life of the refunded or refunding debt. Property taxes are recognized in the period the amount becomes available.

#### Net Position

Net position represents the difference between assets and deferred outflows of resources; and liabilities and deferred inflows of resources. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvement of those assets, and adding back unspent long-term debt proceeds. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation's adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Unrestricted net position is available for the general use of the District.

When both restricted and unrestricted net position is available, restricted net position is expended before unrestricted net position if such use is consistent with the restricted purpose.

#### Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditures of monies are recorded in order to reserve that portion of the applicable appropriation until expended or accrued as a liability of the fund, is employed as an integral part of the accounting system. There were no material encumbrances outstanding as of year-end.

#### Data Control Codes

The Data Control Codes refer to the account code structure prescribed by TEA in the Financial Accountability System Resource Guide. Texas Education Agency requires school districts to display these codes in the financial statements filed with the Agency in order to ensure accuracy in building a statewide database for policy development and funding plans.

#### Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

The amount of state foundation revenue a school district earns for a year can and does vary until the time when final values for each of the factors in the formula become available. Availability can be as late as midway into the next fiscal year. It is at least reasonably possible that the foundation revenue estimate as of June 30, 2020 will change.

## Duncanville Independent School District

### Notes to the Basic Financial Statements

#### Pension

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### Other Post-Employment Benefits (OPEB)

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as you-go plan and all cash is held in a cash account.

## Note 2. Fund Balances

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

### **Nonspendable**

This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. The District has classified inventories and prepaid items as being nonspendable as these items are not expected to be converted to cash.

### **Restricted**

This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation. Debt service resources are to be used for future servicing of the District's bonded debt and are restricted through debt covenants. Capital projects resources are restricted for future capital outlay. Federal and State grant resources are restricted because their use is restricted pursuant to the grant requirements.

### **Committed**

This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by formal action of the District's Board of Trustees. The Board of Trustees establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This can also be done through adoption and amendment of the budget. These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The Board of Trustees has committed resources as of June 30, 2020 for campus activities.

## Duncanville Independent School District

### Notes to the Basic Financial Statements

#### Assigned

This classification includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the Board of Trustees or through the Board of Trustees delegating this responsibility to other individuals in the District. Under the District's adopted policy, only the Board of Trustees may assign amounts for specific purposes. This classification also includes the remaining positive fund balance for all governmental funds except for the General Fund.

#### Unassigned

This classification includes all amounts not included in other spendable classifications, including the residual fund balance of the General Fund. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed or assigned for those specific purposes.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the Board of Trustees has provided otherwise in its commitment or assignment actions.

The details of the fund balances are included in the Governmental Funds Balance Sheet and are described below:

#### General Fund

The General Fund has nonspendable fund balance of \$647,971, consisting of inventories of \$471,556 and prepaid items of \$176,415. The General Fund has unassigned fund balance of \$50,925,391 at June 30, 2020. Assigned fund balance of the general fund consisted of the following at June 30, 2020:

Old Acton Elementary Renovation	\$	8,200,000
Salary Supplement		3,900,000
Technology		3,000,000
PPE Budget revisions		1,000,000
		<hr/>
<b>Total</b>	<b>\$</b>	<b>16,100,000</b>

#### Debt Service Fund

The Debt Service Fund has restricted funds of \$12,473,347 at June 30, 2020 consisting primarily of property tax collections that are restricted for debt service payments on bonded debt.

#### Other Governmental Funds

The Child Nutrition Fund (a special revenue fund) has a fund balance of \$0. The fund balance of \$377,073 of the Campus Activity Funds (a special revenue fund) is shown as committed due to Board policy committing those funds to campus activities. The Capital Projects Fund has restricted funds of \$3,162,760 at June 30, 2020 consisting primarily of remaining bond issuance proceeds that are restricted for construction and other capital outlay expenditures. Fund 499 had a deficit fund balance of \$24,958 mainly due to the COPs SVPP Grant which was overspent in the current year, but future revenues will make up the deficit fund balance.

## Duncanville Independent School District

### Notes to the Basic Financial Statements

The following special revenue fund's fund balance is restricted by Federal or State grant restrictions:

Other federal special revenue funds	\$	78,964
Advanced placement incentives		8,318
State textbook fund		120,542
Other state special revenue funds		12,565
		<hr/>
Total	\$	220,389
		<hr/>

### Note 3. Stewardship, Compliance, and Accountability

#### Budgetary Data

The Board of Trustees adopts an "appropriated budget" on a basis consistent with generally accepted accounting principles for the General Fund, Debt Service Fund and the Child Nutrition Fund (which is included in the Special Revenue Funds). The District is required to present the adopted and final amended budgeted revenues and expenditures for each of these funds. The District compares the final amended budget to actual revenues and expenditures. The General Fund Budgetary Comparison Schedule appears as required supplementary information (Exhibit G-1) and the other two reports are reflected as other supplementary information (Exhibits J-2 and J-3, respectively).

The following procedures are followed in establishing the budgetary data reflected in the general purpose financial statements:

1. Prior to June 20, the District prepares a budget for the next succeeding fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least ten days public notice of the meeting must be given.
3. Prior to July 1, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by the approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments are made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year end. The following amendments were significant.
  - a. The Instruction budget was decreased by \$1,137,996
  - b. The Facilities acquisition and construction budget was increased by \$1,267,465
4. The Texas Education Agency requires these budgets to be filed with the Texas Education Agency. The budget should not be exceeded in any functional expenditure category under TEA requirements. The original and final amended versions of these budgets are used in this report.

### Note 4. Deposits and Investments

The District's funds are required to be deposited and invested under the terms of a depository contract. The depository bank deposits for safekeeping and trust, with the District's agent bank, approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance.

## Duncanville Independent School District

### Notes to the Basic Financial Statements

#### Cash Deposits

At June 30, 2020, the carrying amount of the District's deposits (checking accounts and interest-bearing demand accounts) was \$3,890,752 and the bank balance was \$4,939,035. The District's cash deposits at June 30, 2020 and during the year ended June 30, 2020 were covered by the FDIC insurance or by pledged collateral held by the District's agent bank in the District's name.

In addition, the following is disclosed regarding coverage of combined balances on the date of highest deposit:

- Depository: J.P. Morgan Chase Bank
- The fair value of securities pledged as of the date of the highest combined balance on deposit was \$13,122,323.
- The highest combined balances of cash, savings, and time deposit accounts amounted to \$12,866,862 and occurred on March 13, 2020. The District's combined deposits on June 30, 2020, and during the year ending June 30, 2020, were fully insured by federal depository insurance or collateralized with securities pledged to the District and held by the District's agent.
- Total amount of FDIC coverage at the time of the highest combined balance was \$250,000.

#### Investments

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, (9) and bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U.S. Treasury, certain U.S. agencies, and the State of Texas, (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) mutual funds, (8) investment pools, (9) guaranteed investment contracts, (10) and common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

The following table categorizes the District's investments at June 30, 2020:

Name	Amount	Minimum Legal Rating	Minimum Legal Rating
Lone Star Investment Pool	\$ 44,811,978	AAA/AAAm	AAA
LOGIC Investment Pool	111,981	AAA/AAAm	AAAm
MBIA Texas CLASS Investment Pool	1,385,051	AAA/AAAm	AAA
TexPool Investment Pool	33,843,977	AAA/AAAm	AAAm
Ameritrade	506	N/A	N/A
	<u>\$ 80,153,493</u>		

## Duncanville Independent School District

### Notes to the Basic Financial Statements

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. GASB Statement No. 72, *Fair Value Measurement and Application* provides a framework for measuring fair value which establishes a three-level fair value hierarchy that describes the inputs that are used to measure assets and liabilities.

- Level 1 inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for an asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for an asset or liability.

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. If a price for an identical asset or liability is not observable, a government should measure fair value using another valuation technique that maximizes the use of relevant observable inputs and minimizes the use of unobservable inputs. If the fair value of an asset or a liability is measured using inputs from more than one level of the fair value hierarchy, the measurement is considered to be based on the lowest priority level input that is significant to the entire measurement.

The District's investments are in investment pools that are measured either at net asset value or at amortized cost and are exempt for fair value reporting.

The TexPool and Lone Star investment pools are external investment pools measured at amortized cost. In order to meet the criteria to be recorded at amortized cost, investment pools must transact at a stable net asset value per share and maintain certain maturity, quality, liquidity and diversification requirements within the investment pool. The investment pools transact at a net asset value of \$1.00 per share, have weighted average maturity of 60 days or less and weighted average life of 120 days or less, investments held are highly rated by nationally recognized statistical rating organization, have no more than 5% of portfolio with one issuer (excluding US government securities), and can meet reasonably foreseeable redemptions. TexPool and Lone Star have a redemption notice period of one day and no maximum transaction amounts. The investment pools' authorities may only impose restrictions on redemptions in the event of a general suspension of trading on major securities market, general banking moratorium or national or state emergency that affects the pools' liquidity.

Public funds investment pools in Texas (Pools) are established under the authority of the Interlocal Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the Act), Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: 1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; 2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and 3) maintain the fair value of its underlying investment portfolio within one half of one percent of the value of its shares.

The District's investments in Pools are reported at an amount determined by the fair value per share of the pool's underlying portfolio, unless the pool is 2a7-like, in which case they are reported at share value. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission (SEC) as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

## **Duncanville Independent School District**

### **Notes to the Basic Financial Statements**

The Lone Star Investment Pool is an investment pool available to governmental entities. The pool was established under the guidance of the Texas Public Funds Investment Act. A board of directors made up of members of the pool is responsible for the overall operation of the pool. The Board has employed various third party organizations to assist in the operations. These third parties are as follows: American Beacon Advisors- Investment Managers, CAPTRUST Financial Advisors- Investment Consultant, State Street Bank- Custodian, and First Public- Administration. In combination with these third party organizations, the pool has received an AAA rating from Standard & Poor's. This rating allows the pool to meet the standards required by the Texas Public Funds Investment Act.

LOGIC is duly chartered by the State of Texas Interlocal Cooperation Act, is administered by First Southwest Asset Management, Inc. and J.P. Morgan Investment Management, Inc. (JPMIM), and managed by JPMIM. J.P. Morgan Chase provides custody, fund accounting and transfer agency services. LOGIC may invest in obligations of the U.S. or its agencies and instrumentalities; repurchase agreements; SEC-registered money market funds rated in the highest rating category by at least one nationally recognized statistical rating organization (NRSRO); and commercial paper rated A-1, P-1 or equivalent by on NRSRO and is fully secured by an irrevocable letter of credit.

Furthermore, Public Trust Advisors, LLC provides specialized investment opportunities and a broad range of services to state and local governments, academic institutions, and other public and private-sector investors.

The Texas Cooperative Liquid Assets Securities System Trust (Texas CLASS) was created as an investment pool for its participants pursuant to Section 2256.016 of the Public Funds Investment Act, Texas Government Code. The Texas CLASS Trust Agreement (Trust) is an agreement of indefinite term regarding the investment, reinvestment and withdrawal of local government funds. The parties to the Trust Agreement are Texas local government entities that choose to participate (the Participants), MBIA Municipal Investors Service Corporation as Program Administrator (the Program Administrator) and Wells Fargo Bank Texas, NA as Custodian (the Custodian).

Texas CLASS is supervised by a Board of Trustees who are elected by the Participants. The Board of Trustees supervises the Trust and its affairs and acts as the liaison between the Participants, the Custodian, and the Program Administrator. The Board administers the affairs of the Trust. It also selects the consultants for Texas CLASS, including the Program Administrator and the Custodian. The Board of Trustees has appointed an Advisory Board composed of Participants and other persons who do not have a business relationship with the Trust and are qualified to advise the Trust. The Advisory Board provides advice to the Board of Trustees and the Program Administrator about the investment policy and investment strategy of the Trust and about other matters as requested by the Board of Trustees and the Program Administrator. The Fund is rated AAA by Standard & Poor's rating agency. This rating is the highest principal stability fund rating assigned by Standard & Poor's.

The State Comptroller of Public Accounts exercises responsibility over TexPool. Oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters.

Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. TexPool operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. TexPool uses amortized cost rather than the fair value to report net position to compute share prices. Accordingly, the fair value of the position in TexPool is the same as the value of TexPool shares. TexPool is rated AAAM by Standard & Poor's rating agency. This rating is the highest principal stability fund rating assigned by Standard & Poor's.

## Duncanville Independent School District

### Notes to the Basic Financial Statements

Cash and investments as of June 30, 2020 are classified in the accompanying financial statements as follows:

Statement of net position:	
Cash and cash equivalents	\$ 83,888,070
Fiduciary funds:	
Cash and cash equivalents	<u>162,151</u>
<b>Total cash and cash equivalents</b>	<b><u>\$ 84,050,221</u></b>
Cash on hand	\$ 5,976
Deposits with financial institutions	3,890,752
Cash equivalents	<u>80,153,493</u>
<b>Total cash and cash equivalents</b>	<b><u>\$ 84,050,221</u></b>

In compliance with the Public Funds Investment Act, the District has adopted a deposit and investment policy. That policy addresses the following risks:

#### Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The table on page 41 presents the minimum rating required by (where applicable) the Public Funds Investment Act, the District's investment policy, or debt agreements, and the actual rating as of the year-end for each investment type held by the District.

#### Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. Investments held by third parties were fully collateralized and held in the District's name.

#### Concentration of Credit Risk

This is the risk of loss attributed to the magnitude of the District's investment in a single issuer (i.e., lack of diversification). Concentration risk is defined as positions of 5 percent or more in the securities of a single issuer. The District's investments in public funds investment pools are not subject to the concentration risk.

#### Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. The District manages its exposure to declines in fair values by limiting the weighted average maturity of its investment portfolio to less than one year from the time of purchase. The weighted average maturity for each investment pool is less than 90 days.

## Duncanville Independent School District

### Notes to the Basic Financial Statements

#### Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At June 30, 2020, the District was not exposed to foreign currency risk.

#### Note 5. Due from Other Governments

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the State through the School Foundation and Per Capita programs. Amounts due from federal and state governments as of June 30, 2020, are summarized below. All federal grants shown below are passed through the TEA and are reported on the combined financial statements as Due from Other Governments.

Fund	Due from Dallas County	State Entitlements	Federal Grants	Total
General	\$ 35,382	\$ 10,549,653	\$ 1,511,852	\$ 12,096,887
Debt service	14,966	-	-	14,966
Other governmental funds	-	-	4,549,514	4,549,514
<b>Total</b>	<b>\$ 50,348</b>	<b>\$ 10,549,653</b>	<b>\$ 6,061,366</b>	<b>\$ 16,661,367</b>

#### Note 6. Interfund Receivables, Payables, and Transfers

Interfund balances at June 30, 2020 consisted of the following individual fund receivables and payables:

	Due From	Due To
General fund:		
Debt service fund	\$ -	\$ 220,518
Internal service fund	663,026	1,705,087
Other governmental funds	5,640,610	684,092
	6,303,636	2,609,697
Debt service fund:		
General fund	220,518	-
Internal service fund:		
General fund	1,705,087	668,340
Other governmental funds	145,176	-
	1,850,263	668,340
Other governmental funds:		
General fund	480,708	5,431,912
Internal service fund	-	145,176
Other governmental funds	4,410	4,410
	485,118	5,581,498
<b>Total</b>	<b>\$ 8,859,535</b>	<b>\$ 8,859,535</b>

Interfund receivables and payables above are primarily used to account for cash owed between funds that are expected to be repaid within one year or less.

# Duncanville Independent School District

## Notes to the Basic Financial Statements

The detail transfer schedule for the year ended June 30, 2020 includes the following:

Transfer Out	Transfer In	Amount	Purpose
General fund	Nonmajor governmental fund	\$ 442,694	To cover negative meal balances in the Child Nutrition Fund and to maintain minimum balance in capital projects fund
General fund	Debt Service Fund	1,464,100	To pay for debt service payments out of General Fund
General fund	Internal service fund	145,422	To cover worker's compensation payroll payments
		<u>\$ 2,052,216</u>	

### Note 7. Capital Asset Activity

Capital asset activity for the District for the year ended June 30, 2020, was as follows:

	Balance July 1,	Additions/ Completions	Transfers/ Retirements	Adjustments	Balance June 30,
Governmental activities:					
Capital assets not being depreciated:					
Land	\$ 5,151,359	\$ -	\$ -	\$ -	\$ 5,151,359

## Duncanville Independent School District

### Notes to the Basic Financial Statements

Depreciation expense was charged to governmental functions as follows:

Instruction	\$ 7,121,060
Instructional resources and media services	205,829
Curriculum and staff development	11,587
Instructional leadership	277,705
School leadership	89,297
Guidance, counseling and evaluation services	81,056
Social work services	2,814
Health services	10,777
Student (pupil) transportation	496,239
Food services	517,226
Co-curricular/ extracurricular activities	100,893
General administration	311,604
Plant maintenance and operations	2,576,475
Security and monitoring services	44,931
Data processing services	614,058
Community services	21,991
<b>Total depreciation expense</b>	<b>\$ 12,483,542</b>

As of June 30, 2020, the District had entered into several construction contracts for various construction and renovation projects for a Police Station and renovated administration building. At June 30, 2020, there was \$10,325,749 remaining costs under these contracts. The administration renovation is being funded by the District's General Fund, and the Police Station is being funded by the District's bond program.

#### Note 8. Unearned and Unavailable Revenue

Unearned and unavailable revenue reported in the governmental funds at June 30, 2020 consisted of the following:

	General Fund	Debt Service Fund	Total
Net tax unavailable revenue	\$ 2,383,372	\$ 853,083	\$ 3,236,455
SHARS unavailable revenue	1,663,614	-	1,663,614
<b>Total unavailable revenue</b>	<b>\$ 4,046,986</b>	<b>\$ 853,083</b>	<b>\$ 4,900,069</b>
Other unearned revenue	\$ 1,700	\$ -	\$ 1,700
<b>Total unearned revenue</b>	<b>\$ 1,700</b>	<b>\$ -</b>	<b>\$ 1,700</b>

Revenue that is not considered available at year end is reported as a deferred inflow of resources in the governmental funds and is recorded as revenue in the government-wide financial statements. Accordingly, tax and SHARS unavailable revenues are reported as revenue in the government-wide financial statements.

# Duncanville Independent School District

## Notes to the Basic Financial Statements

### Note 9. Long-Term Debt

Long-Term obligation activities during the year ended June 30, 2020, were as follows:

Government Activities	Beginning Balance	Additions	Reductions/ Refunded	Ending Balance	Due within One Year
Bonds payable:					
General obligation bonds	\$ 200,331,096	\$ -	\$ 1,666,096	\$ 198,665,000	\$ 2,305,000
CAB premium	10,682,077	-	4,035,461	6,646,616	3,422,501
Accreted interest	10,056,531	878,350	3,808,442	7,126,439	3,847,499
Bond premium/ discount	20,532,323	-	1,509,536	19,022,787	-
Total bonds payable	241,602,027	878,350	11,019,535	231,460,842	9,575,000
Net pension liability	41,239,726	-	3,871,025	37,368,701	-
Net OPEB liability	49,803,886	-	2,763,615	47,040,271	-
<b>Total long-term liabilities</b>	<b>\$ 332,645,639</b>	<b>\$ 878,350</b>	<b>\$ 17,654,175</b>	<b>\$ 315,869,814</b>	<b>\$ 9,575,000</b>

The District issues general obligation bonds for the governmental activities to provide funds for the acquisition of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the District. Current principal and interest requirements are payable solely from future revenues of the Debt Service Fund which consists principally of property taxes collected by the District and interest earnings.

Unlimited tax bonds outstanding as of June 30, 2020 are as follows:

Description	Interest Rate Payable	Amounts Original Issue	Amounts Outstanding July 1, 2019	Issued	Retired	Amounts Outstanding June 30, 2020	CAB Premium	Total Outstanding June 30, 2020	Amounts Due Within One Year
Unlimited Tax Refunding Bonds - Series 2005	3.00 - 5.00%	\$ 1,141,096	\$ 1,141,096	\$ -	\$ 391,096	\$ 750,000	\$ 6,646,616	\$ 7,396,616	\$ 3,797,501

## Duncanville Independent School District

### Notes to the Basic Financial Statements

Debt service requirements are as follows:

Year Ending June 30,	Principal	Interest	Total Requirements
2021	\$ 2,305,000	\$ 9,060,719	\$ 11,365,719
2022	2,395,000	8,983,769	11,378,769
2023	8,710,000	8,887,294	17,597,294
2024	10,590,000	8,456,469	19,046,469
2025	11,040,000	8,010,819	19,050,819
2026-2030	56,285,000	32,808,725	89,093,725
2031-2035	49,125,000	19,460,550	68,585,550
2035-2040	25,485,000	12,132,750	37,617,750
2040-2045	32,730,000	5,072,750	37,802,750
	<u>\$ 198,665,000</u>	<u>\$ 112,873,844</u>	<u>\$ 311,538,844</u>

The District has two bond series that include capital appreciation bonds and capital appreciation bond premiums. No interest is paid on these bonds prior to maturity. The bonds mature variously in 2021 through 2022. Interest accrues on these bonds each February 15 and August 15 even though the interest is not paid until maturity.

There are a number of limitations and restrictions contained in the general obligation bond indenture. Management has indicated that the District is in compliance with all significant limitations and restrictions.

In prior years, the District issued refunding bonds for the purpose of generating resources and decreasing the total debt service payments. Placing the proceeds of the refunding bonds in an irrevocable trust has provided for all future debt service payments on the original bonds.

The general fund has typically been used in prior years to liquidate pension and OPEB liabilities.

#### Note 10. Defined Benefit Pension Plan

##### Plan Description

The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

## Duncanville Independent School District

### Notes to the Basic Financial Statements

#### Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information.

That report may be obtained on the Internet: [http://www.trs.texas.gov/Pages/about\\_archive\\_cafr.aspx](http://www.trs.texas.gov/Pages/about_archive_cafr.aspx); by writing to TRS at 1000 Red River Street, Austin, Texas, 78701-2698; or by calling (512) 542-6592.

#### Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3% (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

#### Contributions

Employee contribution rates are set in state statute, Texas Government Code 825.402. Contribution requirements are established or amended pursuant to Article XVI, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Rates for such plan fiscal years are as follows:

	Contribution Rates	
	2019	2020
Member	7.7%	7.7%
Non-employer contributing entity (State)	6.8%	7.5%
Employers (District)	6.8%	7.5%
Employers (District - Non-OASDI)*	1.5%	1.5%

\*SB12 requires an increase in employer contributions by public school districts, charter schools and regional education service centers. Prior to SB12, only those employers not participating in social security were required to pay a 1.5% contributions (Non-OASDI surcharge). Beginning September 1, 2019 all employers are required to pay the Public Education Employer contribution irrespective of participation in social security.

**Duncanville Independent School District**

Notes to the Basic Financial Statements

The contribution amounts for the District's fiscal year 2020 are as follows:

Employer Contributions	\$	2,829,666
Member Contributions		6,850,406
NECE On-Behalf Contributions		4,109,565

Contributors to the plan include members, employers and the State of Texas as the only nonemployer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during the fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under section 21.402 of the Texas education code.
- During a new member's first 90 days of employment.
- When any part or all of an employee's salary is paid by federal funding source or a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to.

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.
- When a school district does not contribute to the Federal Old-Age, Survivors and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

## Duncanville Independent School District

### Notes to the Basic Financial Statements

#### Actuarial assumptions

The actuarial valuation of the total pension liability was performed as of August 31, 2018. Update procedures were used to roll forward the total pension liability to August 31, 2019 and was determined using the following actuarial methods and assumptions:

Actuarial cost method	Individual entry age normal
Asset valuation method	Market value
Single discount rate	7.25%
Long-term expected Investment rate of return	7.25%
Municipal Bond Rate as of August 2019	2.63%. Source for the rate is the Fixed Income Market Data / Yield Curve / Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index."
Last year ending August 31 in projection period (100 years)	2116
Inflation	2.30%
Salary increases including inflation	3.05% to 9.05% including inflation
Ad-hoc post employment benefit changes	None
Active mortality rates	Based on 90 percent of the RP 2014 Employee Mortality Tables for males and females with full generational mortality. The post-retirement mortality rates for healthy lives were based on the 2018 TRS of Texas Healthy Pensioner Mortality Tables with full generational projection using the ultimate improvement rates from the most recently published projection scale U-MP.

The actuarial methods and assumptions are based primarily on a study of actual experience for the three year period ending August 31, 2018 and adopted in July 2018.

## Duncanville Independent School District

### Notes to the Basic Financial Statements

#### Discount Rate

A single discount rate of 7.25% was used to measure the total pension liability. The single discount rate was based on the expected rate of return on pension plan investments of 7.25%. The projection of cash flows used to determine the single discount rate assumed that contributions from active members and those of the contributing employers and the non-employer contributing entity will be made at the statutorily required rates. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in TRS's target asset allocation as of August 31, 2019 are summarized below:

Asset Class	Target Allocation*	Long-Term Expected Geometric Real Rate of Return**	Expected Contribution to Long-term Portfolio Returns
Global equity:			
U.S.	18.00%	5.70%	1.04%
Non-U.S. developed	13.00%	6.90%	0.90%
Emerging markets	9.00%	8.95%	0.80%
Directional hedge funds	4.00%	3.53%	0.14%
Private equity	13.00%	10.18%	1.32%
Stable value:			
U.S. Treasuries	11.00%	1.11%	0.12%
Hedge funds (stable value)	4.00%	3.09%	0.12%
Real return:			
Global inflation linked bonds	3.00%	0.70%	0.02%
Real estate	14.00%	5.21%	0.73%
Energy natural resources and infrastructure	5.00%	7.48%	0.37%
Risk parity:			
Risk parity	5.00%	3.70%	0.18%
Asset allocation leverage cash	1.00%	-0.30%	0.00%
Inflation expectation	0.00%		2.30%
Volatility drag***	0.00%		-0.79%
<b>Total</b>	<b>100.00%</b>		<b>7.25%</b>

\* FY 2019 target allocation based on the strategic asset allocation dated 10/1/2018

\*\* Capital market assumptions come from Aon Hewitt (2017 Q4)

## Duncanville Independent School District

### Notes to the Basic Financial Statements

#### Discount Rate Sensitivity Analysis

The following table presents the District's proportionate share of net pension liability for TRS calculated using the discount rate of 7.25%, as well as the District's proportionate share of the respective net pension liability if it was calculated using a discount rate that is 1% lower or 1% higher than the current rate:

	1% Decrease in Discount Rate (6.25%)	Discount Rate (7.25%)	1% Increase in Discount Rate (8.25%)
District's proportionate share of the net pension liability	\$ 57,441,120	\$ 37,368,701	\$ 21,106,165

#### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the District reported a liability of \$37,368,699 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability	\$ 37,368,701
State's proportionate share that is associated with District	<u>61,037,063</u>
<b>Total</b>	<u><u>\$ 98,405,764</u></u>

The net pension liability was measured as of August 31, 2019 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of August 31, 2018 rolled forward to August 31, 2019. The District's proportion of the net pension liability was based on the District's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2018 through August 31, 2019.

At August 31, 2019, the employer's proportion of the collective net pension liability was .0718862%, a decrease of .0030373% from its proportion measured as of August 31, 2018.

#### Changes Since the Prior Actuarial Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total pension liability since the prior measurement period.

- The single discount rate as of August 31, 2018 was a blended rate of 6.907% and that has changed to the long-term rate of return of 7.25% as of August 31, 2019.
- With the enactment of SB3 by the 2019 Texas Legislature, an assumption has been made about how this would impact future salaries. It is assumed that eligible active members will each receive a \$2,700 increase in fiscal year 2020. This is in addition to the salary increase expected based on the actuarial assumptions.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the fiscal year ended June 30, 2020, the District recognized pension expense of \$9,588,063 and revenue of \$4,323,766 for support provided by the State.

## Duncanville Independent School District

### Notes to the Basic Financial Statements

At June 30, 2020, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 156,982	\$ (1,297,501)
Changes in actuarial assumptions	11,593,606	(4,791,026)
Net Difference between projected and actual investment earnings	375,225	-
Changes in proportion and difference between the employer's contributions and the proportionate share of contributions	2,214,724	(1,848,509)
Contributions paid to TRS subsequent to the measurement date	2,387,672	-
<b>Total</b>	<b>\$ 16,728,209</b>	<b>\$ (7,937,036)</b>

\$2,387,672 reported as deferred outflows of resources related to pensions resulting from District contributions paid subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources (deferred inflows of resources) related to pensions will be recognized in pension expense as follows:

Years Ending June 30,	
2021	\$ 1,695,199
2022	1,253,887
2023	1,644,658
2024	1,729,996
2025	489,426
Thereafter	(409,665)
<b>Total</b>	<b>\$ 6,403,501</b>

## Note 11. Defined Other Post-Employment Benefit Plan

### Plan Description

The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined Other Post-Employment Benefit (OPEB) plan that has a special funding situation. The plan is administered through a trust by the Teacher Retirement System of Texas (TRS) Board of Trustees. It is established and administered in accordance with the Texas Insurance Code, Chapter 1575.

### OPEB Plan Fiduciary Net Position

Detail information about the TRS-Care's fiduciary net position is available in the separately issued TRS Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at [http://www.trs.texas.gov/Pages/about\\_archive\\_cafr.aspx](http://www.trs.texas.gov/Pages/about_archive_cafr.aspx); by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

## Duncanville Independent School District

### Notes to the Basic Financial Statements

#### Benefits Provided

TRS-Care provides a basic health insurance coverage (TRS-Care 1), at no cost to all retirees from public schools, charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. The Board of Trustees of TRS is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052.

The premium rates for the optional health insurance are based on years of service of the member. The schedule below shows the monthly rates for a retiree with and without Medicare coverage.

TRS-Care Plan Premium Rates  
Effective January 1, 2019 - December 31, 2019

	Medicare	Non-medicare
Retiree*	\$ 135	\$ 200
Retiree and spouse	529	689
Retiree* and children	468	408
Retiree and family	1,020	999

\* or surviving spouse

#### Contributions

Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25 percent of the employee's salary. Section 1575.203 establishes the active employee's rate which is .75 percent of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25 percent or not more than 0.75 percent of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

	2020	2019
Active employee	0.65%	0.65%
Non-employer contribution entity (state)	1.25%	1.25%
Employers/District	0.75%	0.75%
Federal/private funding remitted by Employers	1.25%	1.25%

## Duncanville Independent School District

### Notes to the Basic Financial Statements

The contribution amounts for the District's fiscal year 2020 are as follows:

District contributions	\$	753,718
Member contributions		578,281
NECE on-behalf contributions (state)		938,002

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers. In addition, the State of Texas contributed \$611,780, \$318,535, and \$325,098 in 2020, 2019 and 2018, respectively, for on-behalf payments for Medicare Part D.

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to (regardless of whether or not they participate in the TRS Care OPEB program). When hiring a TRS retiree, employers are required to pay TRS-Care, a monthly surcharge of \$535 per retiree.

TRS-Care received a supplemental appropriation from the State of Texas as the Non-Employer Contributing Entity in the amount of \$73.6 million in fiscal year 2019.

#### Actuarial Assumptions

The actuarial valuation of the total OPEB liability was performed as of August 31, 2018. Update procedures were used to roll forward the total OPEB liability to August 31, 2019. The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. The following assumptions used for the valuation of the TRS-Care OPEB liability are identical to the assumptions employed in the August 31, 2019 TRS annual pension actuarial valuation:

Demographic Assumptions	Economic Assumptions
Rates of mortality	General inflation
Rates of retirement	Wage inflation
Rates of termination	Salary increases
Rates of disability	

See Note 10 for detail on these assumptions. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2017.

The initial medical trend rates were 10.25% for Medicare retirees and 7.50% for non-Medicare retirees. There was an initial prescription drug trend rate of 10.25% for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.50 % over a period of 13 years.

Actuarial cost method	Individual Entry Age Normal
Inflation	2.63%
Aging factors	Based on plan specific experience
Election rates	Normal Retirement: 65% participation prior to age 65 and 50% after age 65. 25% of pre-65 retirees are assumed to discontinue coverage at age 65.
Expenses	Third-party administrative expenses related to the delivery of health care benefits are included in the age-adjusted claims costs.
Ad hoc postemployment benefit changes	None

## Duncanville Independent School District

### Notes to the Basic Financial Statements

In this valuation, the impact of the Cadillac Tax has been calculated as a portion of the trend assumption. Assumptions and methods used to determine the impact of the Cadillac Tax include:

- 2018 thresholds of \$850/\$2,292 were indexed annually by 2.30%.
- Premium data submitted was not adjusted for permissible exclusions to the Cadillac Tax.
- There were no special adjustments to the dollar limit other than those permissible for non-Medicare retirees over 55.

Results indicate that the value of the excise tax would be reasonably represented by a 25 basis point addition to the long-term trend rate assumption.

#### Discount Rate

A single discount rate of 2.63% was used to measure the total OPEB liability at August 31, 2019. This was a decrease of 1.06% in the discount rate since the August 31, 2018 measurement date. The plan is essentially a "pay-as-you-go" plan, and based on the assumption that contributions are made at the statutorily required rates, the OPEB plan's fiduciary net position was projected to not be able to make all future benefit payments to current members and therefore, the single discount rate is equal to the prevailing municipal bond rate. The source for the rate is the Fixed Income Market Data / Yield Curve / Data Municipal Bonds with 20 years to maturity that include only federally tax-exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index".

#### Sensitivity of the Net OPEB Liability

##### Discount Rate

The following table presents the District's proportionate share of the TRS-Care net OPEB liability as well as what the District's proportionate share of the net OPEB liability should be if it were calculated using a discount rate that was 1% less than and 1% greater than the discount rate that was used (2.63%) in measuring the net OPEB Liability.

Sensitivity of the Net OPEB Liability to  
the Single Discount Rate Assumptions

1% Decrease (1.63%)	Current Discount Rate (2.63%)	1% Increase (3.63%)
\$ 56,792,701	\$ 47,040,271	\$ 39,410,936

##### Healthcare Cost Trend Rates

The following table presents the District's proportionate share of net OPEB liability using the assumed healthcare cost trend rate, as well as what the net OPEB liability would be if it were calculated using a trend rate that is 1% lower or 1% higher than the assumed health-care cost trend rate:

Sensitivity of the Net OPEB Liability to  
the Healthcare Cost Trend Rate Assumptions

1% Decrease	Current Healthcare Cost Trend Rate	1% Increase
\$ 38,373,803	\$ 47,040,271	\$ 58,649,359

## Duncanville Independent School District

### Notes to the Basic Financial Statements

#### OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs

At June 30, 2020, the District reported a liability of \$47,040,271 for its proportionate share of the TRS's Net OPEB Liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the net OPEB liability	\$ 47,040,271
State's proportionate share of the net OPEB liability associated with the District	<u>62,505,998</u>
<b>Total</b>	<u><u>\$ 109,546,269</u></u>

The net OPEB liability was measured as of August 31, 2019 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as August 31, 2018 rolled forward to August 31, 2019. The District's proportion of the net OPEB liability was based on the District's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2018 through August 31, 2019.

At August 31, 2019, the employer's proportion of the collective net OPEB liability was 0.0994693% which was a decrease of 0.00027626% from its proportion measured as of August 31, 2018.

#### Changes Since the Prior Actuarial Valuation

The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period:

- The discount rate changed from 3.69% as of August 31, 2018 to 2.63% as of August 31, 2019. This change increased the total OPEB liability.
- The participation rate for pre-65 retirees was lowered from 70% to 65%. The participation rate for post-65 retirees was lowered from 75% to 50%. 25% of pre-65 retirees are assumed to discontinue their coverage at age 65. There was no lapse assumption in the prior valuation. These changes decreased the total OPEB liability.
- The trend rates were reset to better reflect the plan's anticipated experience. This change increased the total OPEB liability.
- The percentage of retirees who are assumed to have two-person coverage was lowered from 20% to 15%. In addition, the participation assumption for the surviving spouses of employees that die while actively employed was lowered from 20% to 10%. These changes decreased the total OPEB liability.

For the fiscal year ended June 30, 2020, the District recognized OPEB expense of \$1,647,402 and revenue of \$840,937 for support provided by the State.

## Duncanville Independent School District

### Notes to the Basic Financial Statements

At June 30, 2020, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual economic experience	\$ 2,307,725	\$ (7,697,642)
Changes of assumptions	2,612,720	(12,652,678)
Net difference between projected and actual earnings on pension plan investments	5,075	-
Changes in proportion and differences between District contributions and proportionate share of contributions (cost-sharing plan)	2,416,128	(153,385)
District contributions after measurement date	632,391	-
<b>Totals</b>	<b>\$ 7,974,039</b>	<b>\$ (20,503,705)</b>

\$632,391 reported as deferred outflows of resources related to OPEB resulting from District contributions paid subsequent to the measurement date will be recognized as a reduction of the OPEB liability in the year ended June 30, 2021. Other amounts reported as deferred outflows of resources (deferred inflows of resources) related to OPEB will be recognized in OPEB expense as follows:

Year Ending June 30,	
2021	\$ (2,271,311)
2022	(2,271,311)
2023	(2,272,954)
2024	(2,273,893)
2025	(2,273,636)
Thereafter	(1,798,952)
<b>Total</b>	<b>\$ (13,162,057)</b>

## Note 12. Risk Management

The District is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance. There were no significant reductions in coverage in the past fiscal year, and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

The District maintains a self-insured worker's compensation plan through membership in a self-insured pool. For this pool, stop-loss coverage was in effect for individual claims exceeding \$450,000 with an aggregate limit of \$2,000,000. The District is partially self-funded to a loss fund maximum of \$396,301. Additionally, the District incurred fixed costs of \$255,641 for its share of claims administration, loss control, record keeping, and cost of excess insurance.

## Duncanville Independent School District

### Notes to the Basic Financial Statements

Settled claims have not exceeded the aggregate coverage in any of the past three fiscal years. Insurance coverage has not been reduced for the year from the prior year. Self-insurance fund revenues and expenses are recognized on the accrual basis. Unpaid claims filed prior to June 30 and subsequently approved by the administrator of the plan are recorded as a liability.

The District accrues a liability for incurred but not reported claims if considered material.

	2020	2019
Claims payable, beginning of year	\$ 323,869	\$ 128,799
Claims incurred and changes in estimates	130,420	358,623
Claims payments	<u>(290,711)</u>	<u>(163,553)</u>
Claims payable, end of year	<u>\$ 163,578</u>	<u>\$ 323,869</u>

#### Note 13. Subsequent Events

On July 15, 2020, the Board of Trustees approved issuance of the "Duncanville Independent School District Unlimited Tax Refunding Bonds, Series 2020" in the amount of \$24,165,000. Proceeds of this issuance were used to refund \$25,215,000 of Series 2013-B Unlimited Tax Refunding Bonds.

In March 2020, the World Health Organization declared the novel coronavirus (COVID-19) a global pandemic and recommended containment and mitigation measures worldwide. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected public education, workforces, economies, and financial markets globally, potentially leading to an economic downturn. It has also disrupted the normal operations of many businesses and organizations. It is not possible for management to predict the duration or magnitude of the adverse results of the outbreak and its disruptive effects on the District's operations and financial results at this time.

### Notes to the Required Supplementary Information

#### **Note 1. Budgetary Data**

##### **Budgetary Information**

The official budget was prepared for adoption for the general, debt service, and child nutrition funds. The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

1. Prior to June 20 of the preceding fiscal year, the District prepares a budget for the next succeeding fiscal year beginning July 1.
2. A meeting of the Board is called for the purpose of adopting the proposed budget with public notice given at least 10 days prior to the meeting.
3. Prior to the expenditures of funds, the budget is adopted by the Board.

After adoption, the budget may be amended through action by the Board. Budget amendments are approved at the functional expenditure level. All amendments are before the fact and reflected in the official minutes of the Board. Budgets are controlled at the functional level by personnel responsible for the organizational financial reporting. All budget appropriations lapse at the end of the year. Budget amendments throughout the year were not significant.

**Duncanville Independent School District**  
Statistical Section (Unaudited)

This part of the Duncanville Independent School District's comprehensive annual financial report present detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the government's overall financial health.

**Contents:**

Financial Trends Information..... 94

These schedules contain trend information intended to help the reader understand how the District's financial position has changed over time.

Revenue Capacity Information ..... 111

These schedules contain information intended to help the reader assess the District's most significant revenue source, state tax collections.

Debt Capacity Information ..... 118

These schedules contain information intended to assist users in understanding and assessing the District's current levels of outstanding debt and the ability to issue additional debt.

Demographic and Economic Information ..... 124

These schedules provide demographic and economic indicators intended to help the readers understand the socioeconomic environment within which the District's financial activities take place.

Operating Information ..... 129

These schedules provide contextual information about the District's operations and resources intended to assist readers in using financial statement information to understand and assess the District's economic condition.

**Source:** All information provided by Texas Municipal Reports except for information regarding District debt, total assessed taxable valuation, and population which were provided by Duncanville ISD.

**Note:** Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the district. This schedule estimates the portion of the outstanding debt of these overlapping governments that is borne by the residents and businesses of the district.

The percentage of overlapping debt applicable is estimated using taxable property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

## **Overall Compliance and Internal Control Section**

**This Page Intentionally Left Blank**

**Independent Auditor's Report on Internal Control over  
Financial Reporting and on Compliance and Other Matters  
Based on an Audit of Financial Statements Performed  
in Accordance with *Government Auditing Standards***

To the Board of Trustees of  
Duncanville Independent School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Duncanville Independent School District (the District), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 13, 2020.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2020-001 to be a significant deficiency.

**Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Weaver and Tidwell, L.L.P.  
2300 North Field Street, Suite 1000 / Dallas, Texas 75201  
Main: 972.490.1970

The Board of Trustees of  
Duncanville Independent School District

### **The District's Response to Findings**

The District's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditor's Report on Compliance for Each Major Federal  
Program and on Internal Control over Compliance in  
Accordance with the Uniform Guidance**

To the Board of Trustees of  
Duncanville Independent School District

**Report on Compliance for Each Major Federal Program**

We have audited Duncanville Independent School District's (the District) compliance with the types of compliance requirements described in the *U.S. Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2020. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

**Management's Responsibility**

Management is responsible for compliance with federal statutes, regulations, and terms and conditions of federal awards applicable to its federal programs.

**Auditor's Responsibility**

Our responsibility is to express an opinion on compliance for the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

**Opinion on Compliance for Each Major Federal Program**

In our opinion, the District, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

## Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

## Duncanville Independent School District

Schedule of Findings and Questioned Costs – Continued  
For the Fiscal Year Ended June 30, 2020

### Section 2. Financial Statement Findings

#### Finding 2020-001 – Significant deficiency in Internal Control over Financial Reporting – Fiscal Year End Closing Procedures

Criteria:

Management is responsible for the accuracy and completeness of the financial records and for establishing and maintaining effective internal control over financial reporting.

Condition:

Fiscal year 2019-2020 was an unusual year, and the District not only navigated virtual learning in response to the coronavirus pandemic, but they also had to modify their internal controls over financial reporting due to stay-at-home orders issued by Dallas County. The year-end close process has always been completed in the district's administration office between July 1 and August 31. During the year-end close process, financial reports are printed and hardcopies of information are being exchanged and reviewed daily. As learning moved to a virtual environment, so did the business operations processes, and the District was working remotely mid-March through mid-August of 2020. The efficiency of the year-end close process was affected by this change, and the year was not closed by the time the audit started.

During our audit, we identified journal entries that were made to correct year-end balances. Entries were made to reconcile:

1. Reimbursement-based grant funds. The entries made were to match the revenue with expenditures at fiscal year-end.
2. Interfund receivables and payables. The entries were made to balance *due to other funds* and *due from other funds*. We also identified audit adjustments for transactions that were classified as interfund receivables and payables but were transfers between funds.
3. Accounts payable. We identified four invoices that were not properly accrued in accounts payable as of year-end. Accounts payable and expenditures were understated by \$713,559.
4. Capital assets. Preparation of a rollforward of capital assets and depreciation schedule was not completed.

We also noted that the District's cash balance was not reconciled at year-end. The book balance exceeded the reconciled bank balance by \$227,474.

Context

During our audit, we identified errors, and journal entries were made to correct the year-end balances.

Cause

Because these errors were not detected and corrected prior to the audit, there is an indication that effective internal controls over the year-end close procedures were not in place.

Effect or Potential Effect:

The District's system of internal controls did not detect misstatements. By establishing effective closing procedures that can be done onsite or virtually, irregularities will be detected.

## **Duncanville Independent School District**

### **Schedule of Findings and Questioned Costs – Continued**

**For the Fiscal Year Ended June 30, 2020**

#### *Recommendation:*

As part of the year-end close process, we recommend the District's business office perform balance sheet reconciliations. We also recommend having a supervisor review the reconciliations for accuracy and agree the reconciled balances to the general ledger.

#### *Views of Responsible Officials and Planned Corrective Actions:*

Management agrees with the finding and has completed a corrective action plan.

### **Section 3. Federal Awards Findings**

None

### **Section 4. Schedule of Prior Audit Findings and Questioned Costs**

None

## Corrective Action Plan (prepared by the District)

### Finding 2020-001 – Significant Deficiency in Internal Control over Financial Reporting – Fiscal Year-end Closing Procedures

#### Views of Responsible Officials and Planned Corrective Actions:

2019-20 was a unique year. While the district agrees that the items listed were incomplete when the audit began, we also feel that we, as well as all other school districts, experienced some circumstances completing the year that have never been experienced before. We were working remotely until August 17, 2020, which made it difficult to communicate as well as coordinate the ending of the year. That being said, all of the items should be completed before the audit is scheduled to begin.

To remedy the situations noted, the District will perform balance sheet reconciliations and a supervisor will review the reconciliations for accuracy and agree the reconciled balances to the general ledger.

This process will begin immediately and evidence of completion will be noted when the fiscal year 2020-21 audit begins.

Responsible party: Edd Bigbee, Interim Chief Financial Officer

The Notes to the Schedule of Expenditures of Federal Awards are an integral part of this statement.

## Duncanville Independent School District

### Notes to the Schedule of Expenditures of Federal Awards

The District uses the fund types specified in Texas Education Agency's Financial Accountability System Resource Guide. Special Revenue Funds are used to account for resources restricted to, or designated for, specific purposes by a grantor. Federal and state financial assistance generally is accounted for in a Special Revenue Fund. Generally, unused balances are returned to the grantor at the close of specified project periods.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial resources measurement focus. All Federal grant funds were accounted for in a Special Revenue Fund which is a Governmental Fund type. With this measurement focus, only current assets and current liabilities and the fund balance are included on the balance sheet. Operating statements of these funds present increases and decreases in net current position.

The modified accrual basis of accounting is used for the Governmental Fund types and Agency Funds. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on Long-Term Debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

Federal grant funds are considered to be earned to the extent of expenditures made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as deferred revenues until earned.

The District participates in numerous state and Federal grant programs that are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the District has not complied with the rules and regulations governing the grants, if any, refunds of any money received may be required and the collectability of any related receivable at June 30, 2020, may be impaired. In the opinion of the District, there are not significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provisions has been recorded in the accompanying combined financial statements for such contingencies.

The following table reconciles total expenditures per the Schedule of Expenditures of Federal Awards (Exhibit K-1) to the federal program revenues per Exhibit C-3:

Total expenditures of federal awards per Exhibit K-1	\$	13,525,616
SHARS revenue		<u>1,817,198</u>
<b>Total federal programs revenue per Exhibit C-3</b>	<b>\$</b>	<b><u>15,342,814</u></b>

The District has elected not to use the 10% de minimis indirect cost rate.

Schedule of Required Responses to  
Selected School FIRST Indicators (Unaudited)  
For the Fiscal Year Ended June 30, 2020

**Exhibit L-1**

<u>Data Codes</u>		<u>Responses</u>
SF1	Was there an unmodified opinion in the Annual Financial Report on the financial statements as a whole?	Yes
SF2	Were there any disclosures in the Annual Financial Report and/or other sources of information concerning nonpayment of any terms of any debt agreement at fiscal year-end?	No
SF3	Did the school district make timely payments to the Teacher Retirement System (TRS), Texas Workforce Commission (TWC), Internal Revenue Service (IRS), and other government agencies? (If the school district was issued a warrant hold and the warrant hold was not cleared within 30 days from the date the warrant hold was issued, the school district is considered <b>to not have made</b> timely payments.) Payments to the TRS and TWC are considered timely if a warrant hold that was issued in connection to the untimely payment was cleared within 30 days from the date the warrant hold was issued.  Payments to the IRS are considered timely if a penalty or delinquent payment notice was cleared within 30 days from the date the notice was issued.	Yes
SF4	Was the school district issued a warrant hold? Even if the issue surrounding the initial warrant hold was resolved and cleared within 30 days, the school district is considered to have been issued a warrant hold.	No
SF5	Did the Annual Financial Report disclose any instances of material weaknesses in internal controls over financial reporting and compliance for local, state, or federal funds?	No
SF6	Was there any disclosure in the Annual Financial Report of material noncompliance for grants, contracts, and laws related to local, state, or federal funds?	No
SF7	Did the school district post the required financial information on its website in accordance with Government Code, Local Government Code, Texas Education Code, Texas Administrative Code and other statutes, laws and rules that were in effect at the school district's fiscal year end?	Yes
SF8	Did the school board members discuss the school district's property values at a board meeting within 120 days before the school district adopted its budget?	Yes
SF9	Total accumulated accretion on capital appreciation bonds included in government-wide financial statements at fiscal year-end:	\$ 7,126,439
